**Subject:** , *!firstname*, 20 million Americans suffer from hypothyroidism

Dear *!firstname*

A colleague of mine passed along this information, and after reading it, I simply had to share it right away with all my customers.

If you're like me then you might be just as shocked as I was to discover that nearly 20 million Americans suffer from hypothyroidism.

The fact is that a properly functioning thyroid gland is extremely crucial for your metabolism, and when it doesn't work correctly, many of your bodily functions can suffer. Unfortunately, There are thousands of people who suffer from hypothyroidism without ever learning what is wrong with them.

*!firstname*, if you feel tired, sluggish, down in the dumps, or depressed you may be suffering from hypothyroidism.

The truth is that conventional medicine doesn't really have the best testing or treatment methods for hypothyroidism. And, just because your test results come back negative doesn't mean you don't have hypothyroidism.

Thankfully, now you no longer need to worry. There is a proven solution that has helped over 68,000 people lift the dark cloud of low metabolism.

*!firstname*, I think this is really something you need to read about - right away.

**Subject:** *!firstname*, Are You Suffering ?

Dear *!firstname*

I hope all is well.

*!firstname*, let me ask you a personal and perhaps somewhat embarrassing question.

Do you find yourself suffering from any of the following symptoms;

- \* *Cramping pain in stomach area (abdomen)*
- \* *Painful diarrhea or constipation*
- \* *mucus in your stool*
- \* *Swollen or bloated abdomen*
- \* *The feeling that you have not finished a bowel movement*

If so, you shouldn't worry because you really aren't alone. At least 10-20% of Americans (up to 54 million people) experience IBS at some point in their lives.

A partner of mine recently shared with me some important information about a new oral treatment that attacks and destroys the bacteria that causes irritable bowel syndrome.

You can learn all about it at the following website:

**Subject:** *!firstname*, Naturally Rid Your Body Of Toxins

Dear *!firstname*

Here's an interesting and inspirational story I thought I'd share with you today.

Dr. John Harvey Kellogg was a famous surgeon and the creator of Kellogg's Corn Flakes. He was one of the earliest and most famous believers in the need to maintain a healthy colon. Dr. Kellogg believed that the root of most health problems originated in the bowel, which is why he developed a bran cereal that would help people improve the functioning of their colons.

Unfortunately, society and lifestyles have changed. People work much longer hours and have very little time to cook meals at home.

That's why bran cereal is simply not enough anymore.

Our bodies have become polluted with too many undesirable substances with today's unhealthy diet. Toxic chemicals and noxious parasites collect and move through our digestive systems on a daily basis. The results can range from heart disease to chronic pain and severe fatigue.

Just to name a few.

*!firstname*, thanks to an all natural alternative you can finally rid your entire body of harmful toxins.

A Colleague of mine setup this special link for my customers to review all the details:
